AUDITOR'S REPORT

Selectmen
Town of Newington
Newington, NH 03801

Gentlemen:

I have examined the combined financial statements of the Town of Newington, New Hampshire, and its combining and individual fund financial statements as of and for the year ended December 31, 1986. As a part of my examination I made a study and evaluation of the Town's system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards the purpose of such evaluation is to establish a basis of reliance on the system of internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

My study and evaluation of the system of internal accounting control was made for the purpose set forth in the paragraph above and accordingly would not necessarily disclose all weaknesses in the system because it was based upon selective tests of the accounting records and related data . As a result of this study and evaluation I have noted no particular areas where improvements can be made to strengthen the system of internal accounting control.

At this time I wish to thank the Town officials, especially Mr. Norman Myers and Mrs. Pat Main for the cooperation and courtesy shown my staff during the course of the engagement.

Signed,
Irene R. Lebel
Certified Public Accountant

**ACTION TAKEN ON WARRANT ARTICLES
1987 TOWN MEETING**

- Article 1 Election of Officers
- Article 2. Zoning – Amendments 1 through 9 – approved deleting obsolete sections no longer required.
- Article 3. Voted to amend the Building Code to increase penalty provisions from \$10.00 to \$100 per day – also, delete the word non-climbable re: pool fences.
- Article 4. Voted to allow the Planning Board to prepare a Capital Improvements Program.
- Article 5. Voted to allow expenditure of accumulated interest from sewer revenues.
- Article 6. Voted to change speed limit on Airport Road to 20 MPH.
- Article 7. Voted to leave maintenance of town buildings to Selectmen.
- Article 8. Voted to allow Selectmen to dispose of property acquired through Tax Collectors' deeds.
- Article 9. Voted to allow the Selectmen to borrow in anticipation of taxes.
- Article 10. Voted to place Revenue Sharing Funds in Capital Reserve Fund for Fire Department vehicle.
- Article 11. Approved Budget.
- Article 12. Heard report of the Moderator.

BOARD OF SELECTMEN

The Board of Selectmen continue to hold their stated meetings on the 1st and 3rd Mondays of each month at 6:30 p.m. These meetings are open to the public. We also have held many meetings in the afternoon (which are also open to the public). The afternoon meetings usually consist of discussions of matters that would be too time consuming and lengthy to be discussed at our regular meetings; for example, recently we met with our insurance consultant who has reviewed all of the town policies, and later with our insurance agent to discuss and implement the consultant's suggestions.

Overall, this has been a quiet year, with most of our time being taken up with routine business of the town's day-to-day operation. The board is very disappointed that the Old Parsonage was not finished this past year, but we had considerable trouble getting our contractor to give us his undivided attention. This problem has been solved and we have every confidence that the Parsonage will be put to rights this year.

A matter of concern to many is the past practice of snowplowing private driveways; as you know, this practice has been discontinued. The decision was brought about after much deliberation on the part of the Selectmen. Conclusion being that the number of homes greatly increased these past few years, and more subdivisions are being proposed. It is very difficult to get people to plow driveways at the price the town is willing to pay, and many of the individuals in town who would plow are not in the plowing business and have great concern about the cost of their liability insurance. More importantly, the Selectmen are very much concerned with the legal ramifications encumbered by the town when a town employed plow enters onto private property. It is always our policy not to place the town in jeopardy. The legality of using town funds to plow private property has always been questionable and there is presently a bill in the General Court to make it illegal.

The Selectmen are aware that there is great concern among the townspeople as to the status of Public Service Company of New Hampshire in regards to their property taxes. Public Service, who pays 40.27% of the taxes in this town, have paid, in full, the property taxes for 1987. What will happen now they have filed Chapter 11, is conjecture, but it is our understanding that in cases such as this, taxes are paid first. If this is the case, then we see no problem for Newington in the coming years. It is too soon, at the time of writing this letter, to give you any definite answers to the questions you may have. It is hoped, that by the time Town Meeting arrives, we will be better able to lay to rest your anxieties or concerns regarding this matter.

Board of Selectmen
Paul Kent, Chairman

REPORT OF THE NEWINGTON POLICE COMMISSION

In March of 1987, three residents were elected to serve as board members on the newly established Police Commission. Since then, the police commissioners have conducted over forty public meetings and engaged in hundreds of hours of research and monitoring.

From the outset, the commission decided to rely on sound management principles and common sense in achieving its goal of maintaining a superior police department with a reasonable tax effort. During 1987 the commission adopted policies and procedures that trimmed thousands of dollars off various line item accounts. Significant steps were taken to reduce operational costs and upgrade the quality of service.

Research clearly showed that the two unmarked police vehicles, leased for three years in May of 1985, cost about 45 cents per mile to operate, excluding insurance and gasoline. This practice has been terminated, and the number of police vehicles will be reduced. Additionally, the police motorcycle has been removed from service.

Emphasis has been placed on enforcing speed limits on town roads especially in the vicinity of the school. Patrols have been expanded to include many of the longer driveways and right of ways supporting several dwellings.

The high turnover in personnel, due mainly to a large pay disparity with neighboring communities, has been addressed by a more realistic adjustment in wages. The net result has been the ability of Newington to attract certified and more experienced police officers. The long term expectation is that the longevity of most of these patrolmen will increase.

Weekly patrol shifts were changed from four twelve-hour days to five eight-hour days. The commission agreed that the longer shifts had a detrimental effect on an officer's ability to respond and react, and on their attitude and morale.

The police department is now participating in the seminars offered by the Police Standards and Training Council. This additional training, at no expense to the town, will ensure that our police officers have the best qualifications available to better serve this community.

Finally, the Neighborhood Crime Watch program is in the introductory phase. During the next several weeks Newington will take significant steps to ensure that, with neighbors helping neighbors this town will become an unattractive place in which to commit crimes against our residents or their property.

Our patrolmen are to be commended for numerous law enforcement accomplishments during 1987. These include: the apprehension, after a foot pursuit, of a robbery suspect on Maplewood Avenue; the arrest of a member of a team of professional burglars, discovered

loading stolen merchandise into a truck behind the S.D. Sundeen Warehouse, apprehended after a four-hour foot pursuit through the woods and in the rain; an arrest on Christmas Eve of a burglary suspect inside the Fox Run Mall; a burglar apprehended leaving town with stolen property from a residence on Little Bay Road, before the crime was reported to police. Additionally, several other felonies have been solved by good police work.

The commission sincerely believes that the greatest problem now facing our police department is the critical space shortage which the department confronts on a daily basis. The current office space and layout is a dangerous place in which to conduct business. Evidence cannot be securely maintained, files need to be stored in several locations throughout the building and town, interviews with suspects or victims cannot be conducted in privacy, persons under arrest have to sit at officers' desks and are oftentimes an arm's reach from the victim or complainant. Residents who enter the police station on regular business step into the same room where potentially violent persons are being detained. The situation is intolerable and carries a liability factor that needs to be addressed immediately.

In 1984, a committee appointed by the selectmen studied the space requirements of the police department. The committee reached a consensus that the current facilities were inadequate. The situation has worsened in the last three years. This dilemma is not one that the police commission can solve by itself. We need the understanding and support of all the residents in Newington.

During 1988 the commission will continue to be diligent in reducing or limiting operational costs in the department. Special effort will be directed towards reducing station time spent processing shoplifters and completing paperwork, thus increasing actual patrol time. More interaction is being planned with civic groups, school children, and town residents.

On behalf of the Town of Newington, the commission would like to thank the local, county, and state police agencies who rendered assistance during 1987. Special recognition is to be given to the Portsmouth Police who, on numerous occasions, have provided generous support to our department.

This police commission is dedicated to serving the best interests of the Town of Newington and with your patience, understanding, and help will accomplish that.

David Johns
Leonard Thomas
Joseph Akerley

NEWINGTON POLICE DEPARTMENT

1987 ANNUAL REPORT

During 1987, the Police Department recorded 125,213 miles and received 3,097 complaints or calls for assistance. Investigations by the Department's officers included 610 criminal offenses, 6 missing persons and 23 animal complaints. There were 246 criminal arrests

In the area of highway safety, efforts of our officers resulted in 96 motor vehicle arrests, 894 summonses, 849 motor vehicle warnings and 12 defective equipment tags. Officers assisted 262 motorists while on routine patrol and rendered assistance to other law enforcement personnel on 487 occasions. During 1987, there were no fatal accidents; however, 254 property damage accidents and 25 personal injury accidents were reported.

Police activities resulted in 1,164 cases being prepared for the Portsmouth District Court.

The department's prevention and service program resulted in 4,288 building checks and 114 escorts being made. The department investigated 394 burglar alarms, responded to 68 fire calls and assisted in 59 ambulance calls.

During 1987, 28 motor vehicles were reported stolen from Newington and 22 were recovered. Additional property valued at \$197,405 was reported stolen from Newington, while recovered property totaled \$25,341.

While the department worked shorthanded in two positions for the majority of the year due in part to a work-related injury suffered by Sergeant Gordon in April and an unprecedented rate of turnover, we have been successful in finding several qualified replacement officers. Jon Garvin joined the department in July, after a short period of time with the New Castle Police Department. Kenneth Hafen came to us in October from the U.S. Air Force, but left in December to join the Hampton Police Department. We were able to hire Edward Craig of the Greenland Police Department in November and Richard Wood, a former Stratham officer, begins work on January 1, 1988. Two of our Auxiliary Officers, Stephen Kerlee and Thomas Gudaitis, have accepted full time positions but are awaiting their discharges from the Air Force. In addition to Hafen, the department lost Corporals Irving and Iwans, and Officers Assante and Correia.

The requested part time clerical position was filled on a temporary basis in November through an employment agency and has proved to be of great benefit in helping to relieve some of the burden within the department handled by our secretary.

Because of the increase in residential burglaries during the year, the Police Department in conjunction with our Police Commission has begun a **Neighborhood Crime Watch** program within the community. Warning signs have been placed throughout the Town and

local meetings within neighborhoods are scheduled to begin in early 1988. While we have been extremely fortunate in the residential areas of Town in curtailing problem activity, we once again urge all residents to remain attentive to suspicious activity. Your cooperation is greatly appreciated, not only by the members of the Police Department, but more importantly by your neighbors.

The need for additional space for the Police Department has become critical in terms of security, safety and operation. Arrests have grown from 88 in 1979 when we moved into our present location to 342 in 1987, an increase of 288%, and we still have no secure place to detain or process the arrestees. Reported criminal offenses have increased by more than 14% since last year and by more than 77% in the last five years, although shoplifting has only increased by 13% in the same five years. Yet we still have no space to conduct interviews in privacy or adequately store evidence for future court appearances. Accidents and burglar alarms have increased by more than 45% since 1982. The small bathroom which had been converted to a temporary photographic darkroom has since been pressed into service for evidence storage because of the overflow in the vault.

Following a number of years of extensive searching, study and planning, the Police Department is presenting a request for funding for additional space. The presentation incorporates the findings of the original feasibility study conducted by JSA, Inc., the results of the Building Needs Committee and the preliminary work of our architectural firm, TMS Inc. of Portsmouth, N.H.

While the initial JSA Feasibility Study considered options involving renovation of the Old Town Hall, the Building Needs Committee determined after extensive study that a renovation of the Old Town Hall or any other existing town building was not feasible. Consequently, the Committee voted to support two alternatives: a two-story addition to the present building involving a ground floor and a basement level, or, a new single-story building. After lengthy discussion with TMS Inc. and the preparation of a basic floor plan, it appeared that the option of building an addition to the existing building was not feasible for several reasons. The access for vehicles to the sallyport would have to use part of the existing driveway across the front of the Elementary School because the grade was too steep to provide any other access. This would have posed a safety hazard to the children. The old septic system would have to be completely relocated and redesigned to provide for adequate usage. And finally, the addition would provide inadequate room for future expansion for both the Police Department and the Fire Department, while cutting off the rear access to the ambulance bay.

Our efforts therefore turned to the construction of a new building abutting the rear parking lot of the new Town Hall in an attempt to

cut the costs of paving as much as possible. The Building Needs Committee, after careful consideration, had also determined that the requirements of the Police Department could be satisfied with 4200 square feet of office space, exclusive of walls, stairways and corridors. Several alternatives have been prepared by TMS Inc., all within the recommended area size. However, because of the increase in construction costs over the last three years, a number of the work areas have been eliminated to enable us to remain within a realistic cost estimate. Security of evidence, records, firearms and prisoners; the safety of both the public and our employees; and operational concerns including privacy during interviews, adequate work space, and equipment storage have been addressed in a realistic, cost-effective approach to solving the current needs of the department. Your support of the request at this most important stage is greatly appreciated.

Respectfully submitted,
John K. Stimson
Chief

TOWN FOREST FIRE WARDEN

Between July 1986 and June 1987, we experienced fewer fires than normal. The three leading causes of forest fires were again children, fires kindled without written permission of a Forest Fire Warden and debris burning. All causes are preventable but only with **your** help.

Please help our town and state forest officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest tax law may be violated, call your Forest Fire Warden, or Concord Forest Protection Headquarters at (603) 271-2217.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

1987 FOREST FIRE STATISTICS

	STATE	DISTRICT	TOWN
Number of fires	403	108	6
Number of acres	189	23½	1/20

Alfred Grimes, District Chief
Larry Wahl, Town Forest Warden
Richard Spinney, Deputy Warden
Joseph Sukeforth, Deputy Warden

1987 FIRE DEPARTMENT ANNUAL REPORT

The year of 1987 shows an increase in fire calls by 23% over 1986. The Fire Department responded to 204 calls. The following is a breakdown of the calls by district:

- 11% to the Industrial District
- 22% to the Business District
- 20% to the Fox Run Mall
- 13% to the Newington Mall
- 13% to the Residents
- 10% for Motor Vehicle Accidents
- 10% for Mutual Aid Calls
- 1% for Boat Rescues

This Department relies on volunteers for man power to help our neighbors in a time of need. During 1987, the roster dropped to 32 members. Of these 32 members, only 14 members are active and will generally respond to any call.

Early in the year, the Fire Department received and put into service a new pumper/ladder truck. This piece of equipment has made the job of firefighting safer in relation to reaching elevated areas, i.e. chimney fires, ventilating of roofs, or for general inspection of roof areas. This vehicle came with an automatic transmission, which has made driving easier.

The Boy Scouts of America, Explorer Post 933, is alive and well. These young people had been of great help to the Fire Department, and are learning the skills necessary to be a firefighter. Starting sometime in early 1988, they will be taking a series of classes that will qualify them as Firefighter I, as established by the New Hampshire Fire Standards and Training Commission.

I wish to thank each and every firefighter for their time and efforts in improving their skills that are necessary in protecting the Town of Newington.

As a final note, I wish to remind the Town citizens that the Fire Department is available for public assistance calls, as well as for emergencies. We are here to serve you.

Respectfully submitted,
Larry Wahl, Fire Chief

1987 AMBULANCE ANNUAL REPORT

The year of 1987 shows an increase in Ambulance calls by 2% over 1986. The Ambulance responded to 216 calls. The following is a breakdown of the calls by district:

- 10% to the Industrial District
- 14% to the Business District
- 19% to the Fox Run Mall
- 15% to the Newington Mall
- 18% to the Residents
- 14% for Motor Vehicle Accidents
- 10% for Mutual Aid calls

The Ambulance does provide a transfer service for the residents of Newington, and was called upon 4 times. It is a privilege to provide this service for the residents.

During the year of 1987, there were 16 Ambulance Attendances and at the end of 1987, there were only 10 Ambulance Attendances. There is a very strong need for more participation by the residents of the Town. This has put a heavy burden on just a few people. Of the 10 Ambulance Attendances, 9 are residents of the Town.

Some of the Ambulance personnel are trained and are willing to provide to the residents, through an out-reach program, CPR training. Any resident of the Town of Newington wishing to be taught or to be recertified in CPR, can contact the Fire Department and have your name placed on a list to be enrolled into the next available class.

I would like to take this opportunity to thank all Ambulance personnel for their continuing contributions to the Ambulance Service, and their efforts in improving their skills that are necessary for Emergency Medical care given to the Town of Newington.

Respectfully submitted,
Larry Wahl, Ambulance Director

REPORT OF THE PLANNING BOARD

During 1987, the Planning Board received 32 applications for subdivision and site plan review, ten more than the previous record of 22 applications reviewed in 1986. This unprecedented workload has doubled the number of Planning Board meetings and delayed the completion of several long-term projects.

Twelve subdivision applications were submitted in 1987. These applications proposed a total of 87 lots, 83 of which are situated in the Residential District. These 87 lots compare to 24 proposed lots in 1986. Of the 87 lots proposed in 1987, 33 were approved, 22 were withdrawn, and 32 were still pending as of December 31. Three lot line adjustments were also approved.

In 1987, the Planning Board approved site plans for 2 office buildings on the Drive-In Theater property, an industrial building on the Mooney property off River Road, a \$30 million gypsum wallboard plant immediately south of Atlantic Terminal, a building expansion at the former Tennis Barn, and an office facility at PSNH Newton Station.

Considerable time has been spent by the Planning Board on proposed zoning amendments, most notably a proposed Wetlands Conservation District. The Board also reviewed land use recommendations proposed by the U.S. Air Force.

The Planning Board's most significant achievement during 1987 was the long-awaited connector road between the two major malls. This project resulted from several years of time-consuming and difficult negotiations. We expect that the new road will be a convenience to shoppers, reduce traffic congestion along Woodbury Avenue, and generally improve traffic safety.

One of the more interesting applications presented to the Board in 1987 involved a proposal to process Boston's sewer sludge on our waterfront. Among townspeople who attended the sludge meeting in November, the proposal was met with somewhat less than resounding enthusiasm. As of this writing, the sludge proposal was not progressed.

During the coming year, the Planning Board anticipates the completion of the Master Plan (presently 80% complete), the preparation of a Capital Improvements Program, and reprinting of the 1983 Zoning Ordinance. As always, we welcome your comments and suggestions.

Respectfully submitted,
Marlon S. Frink, Chairman

LANGDON LIBRARY

1987 ANNUAL REPORT

HOURS: Wednesday, 1-6 P.M.; Thursday, 1-8 P.M.; Friday & Saturday, 1-6 P.M.; July and August only, Wednesday, Thursday, Friday and Saturday, 1-5 P.M.; Thursday Evenings, 5-8 P.M.

NEWINGTON TOWN WARRANT
STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE TOWN OF NEWINGTON IN THE
COUNTY OF ROCKINGHAM AND SAID STATE QUALIFIED TO
VOTE IN TOWN AFFAIRS:

Yo are hereby notified to meet at the Newington Town Hall on
Tuesday, March 8, 1988, at 10:00 A.M. to act on Articles 1 and 2.

The polls will be open at 10:00 A.M. and close at 6:00 P.M.

The business portion of the meeting to act on Articles 3
through 14 will resume at 1:30 P.M. Saturday, March 12,
1988.

ARTICLE 1. To choose in a manner provided by law One Selectman
for a term of 3 years; One Moderator for a term of 2 years; One
Town Clerk for a term of 1 year; One Tax Collector for a term of
1 year; One Treasurer for a term of 1 year; One Highway Agent for
a term of 1 year; One Police Commissioner for a term of 3 years;
One Fire Engineer for a term of 3 years; One Library Trustee for
a term of 3 years; Three Budget Committee Members for a term of
3 years; Two Planning Board Members for a term of 3 years; One
Trustee of Trust Funds for a term of 3 years; One Cemetery Committee
Member for a term of 3 years; One Sewer Commissioner for a term
of 3 years; One Pound Keeper for a term of 1 year.

ARTICLE 2. To see if the Town will vote to amend the Newington
Zoning Ordinance as follows:

Amendment 1. Add to Article VII Section 2C (Business District-
"Uses Prohibited") the following: "(7) Retail."

Amendment 2. Add the following definition to Article II: "Retail
- A use devoted primarily to the sale of merchandise directly
to the consumer for use off premises."

Amendment 3. In the Industrial and Waterfront Industrial
Districts (Article VII Sections 3D & 4C) change the minimum
lot size from ten acres to five acres.

Amemdment 4. In the Industrial and Waterfront Industrial
Districts (Article VII, Sections 3D & 4C) eliminate minimum
road frontage requirements

Amendment 5. In Article IV Section 10, change the title to "Turnaround Space and Driveways," and add the following: "Driveways shall have a minimum width of ten feet."

Amendment 6. In Article VII Section 1D & 2D (Residential and Business Districts) change the words "Minimum Frontage" to Minimum Continuous Frontage."

Amendment 7. On page 17 of the Zoning Ordinance (1983 edition) delete the sentence "The Building Inspector shall determine the adequacy of parking, loading and unloading space," and replace it with a new Article VI as follows:

Minimum Parking Requirements

Retail Business: 1 space per 250 sq. ft. of floor area

Offices: 1 space per 200 sq. ft. of floor area

Eating and Drinking

Establishments: 1 space for every 3 seats, plus 1 space for each employee

Places of Public

Assembly: 1 space for every 4 seats.

Motels and Hotels: 1 space for each sleeping room, plus 1 space for every two employees.

Amendment 8. Adopt a new Article V, a "Wetlands Conservation District," which would be an overlay district encompassing the entire town. The proposed district would restrict building activities within wetland areas. A copy of the first text of the proposal has been posted at the Town Hall and placed on file with the Town Clerk.

ARTICLE 3. To see if the Town will vote to raise and appropriate a sum not to exceed \$600,000 for the construction and equipping of a new Police facility and said sum to be in addition to any Federal, State or Private funds made available therefore, and to authorize the issuance of not more than \$400,000 of Bonds or Notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33), and to authorize the Town Officials to issue and negotiate such Bonds or Notes and to determine the rate of interest thereon, with the balance of \$200,000 to be raised by general taxation.

ARTICLE 4. To see if the Town will vote authority to expend any accumulated interest from investments of sewer revenues to be applied as an offset for the Sewer Budget of 1988.

ARTICLE 5. To see if the Town will vote to leave the care and maintenance of the Town land and buildings to the Selectmen.

ARTICLE 6. To see if the Town will vote to authorize the Selectmen to dispose of any real estate acquired by the Town through Tax Collectors Deeds.

ARTICLE 7. To see if the Town will vote to authorize the Selectmen to hire money on the credit of the Town in anticipation of taxes at a rate not to exceed the current bank rate.

ARTICLE 8. To see if the Town will vote to authorize the Selectmen to apply for, receive and expend federal and state grants which may become available during the course of the year, in accordance with RSA 31:95-b and also to accept and expend any money from other governmental unit or private source to be used for purposes for which the town may legally appropriate money.

ARTICLE 9. Shall we adopt the provisions of RSA 80:58-86 for a Real Estate Tax Lien Procedure? These statutes provide that tax sales to private individuals for non-payment of property taxes on real estate are replaced with a Real Estate Tax Lien procedure under which only a municipality or county where the property is located or the State may acquire a tax lien against land and buildings for unpaid taxes.

(This article has been submitted by petition, as required by statute.)

ARTICLE 10. To see if the Town will vote to authorize the Selectmen to accept "Gundalow Landing Circle" and "Brickyard Way" as a public road in the Town of Newington.

(By petition of 15 voters.)

ARTICLE 11. To see if the town will vote to raise and appropriate the sum of forty thousand dollars (\$40,000) to purchase a new Fire Department Vehicle and authorize the withdrawal of thirty three thousand nine hundred forty seven dollars (\$33,947) from the Capital Reserve Fund established for that purpose. The balance of six thousand fifty three dollars (\$6,053) to come from general taxation.

ARTICLE 12. To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of a new ambulance and to raise and appropriate the sum of fifteen thousand dollars (\$15,000) to be placed in this fund and to designate the Selectmen as agents to expend.

ARTICLE 13. To hear the report of the Budget Committee and to see what sum of money the Town will vote to raise and appropriate for all Town Expenditures for the ensuing year.

ARTICLE 14. To hear the report of the Moderator on the election of Town Officers.

Given under our hands and seal this 9th day of February, 1988.

Paul Kent, Chairman
John R. Mazeau
Margaret F. Lamson

Paula S. Akerley
SCHOOL BOARD

NEWINGTON SCHOOL DISTRICT WARRANT

1987

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of the Town of Newington in the County of Rockingham and the State of New Hampshire, qualified to vote upon District Affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE NEWINGTON TOWN HALL IN SAID DISTRICT ON TUESDAY, THE 22ND OF SEPTEMBER, 1987, AT 7:30 P.M. TO ACT ON THE FOLLOWING ARTICLE:

1. Shall the School District of Newington accept the provisions of RSA 195, (as amended) providing for the establishment of a cooperative school district, together with the school districts of Greenland, New Castle, Rye, and Stratham, in accordance with the provisions of the proposed articles of agreement filed with the School District Clerk.

GIVEN OVER OUR HAND AND SEALS AT SAID NEWINGTON THE 2ND DAY OF SEPTEMBER, 1987. BARBARA HILL, WENDY SWEENEY, PAULA AKERLEY.

A true copy of the Warrant – Attest:

Barbara Hill
Wendy Sweeney
Paula Akerley

The above Article was amended to add the following:

“This vote shall be of no force and effect unless and until the annual meeting of the district votes to withdraw from the Portsmouth Authorized Regional Enrollment Area (AREA) agreement in accordance with the provisions of RSA 195A:14.”

The above Article, as amended, was defeated on a vote of 42 YES and 73 NO.

NEWINGTON SCHOOL DISTRICT

1988

The State of New Hampshire

To the inhabitants of the School District of the Town of Newington in the County of Rockingham, State of New Hampshire, qualified to vote upon District affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE NEWINGTON TOWN HALL IN SAID DISTRICT ON SATURDAY, THE 12th DAY OF MARCH, 1988, AT 1:00 P.M. TO ACT ON THE FOLLOWING ARTICLES:

NOTICE: School District Officers are to be elected at the Town Meeting, March 8, 1988, in accordance with the Statutory Election Procedure adopted by the District at its February 23, 1962 annual meeting.

ARTICLE 1. To see what action the District will take in relation to reports of agents, auditors, committees, or officers chosen.

ARTICLE 2. To see if the District will authorize the School Board to make application for, to receive and spend in the name of the District, such advances, grants in aid or other funds for educational purposes as may now or hereafter be forthcoming from federal, state, local or private agencies.

ARTICLE 3. To see if the Newington School District will appropriate the sum of Three Thousand Dollars (\$3,000) as a contingency fund as provided under RSA 198:4-a.

ARTICLE 4. To see what sum of money the District will vote to raise and appropriate to fund the increase in cost items relative to teacher salaries and other fringe benefits for the 1988-89 school year, which resulted from the collective bargaining agreement entered into between the Newington School District and the Newington Teachers Association and which represents increases over the current salaries and fringe benefits.

ARTICLE 5. To see what sum of money the District will raise and appropriate for the support of schools, for the payment of salaries of School District officials and agents, and employees (excluding negotiated "cost items" found in Article 4) and for the payment of statutory and other obligations of the District.

ARTICLE 6. To hear the report of the Moderator on the election of School Officers.

GIVEN UNDER OUR HANDS AND SEALS AT SAID NEWINGTON
THIS 11TH DAY OF FEBRUARY, 1988.

1987 RECREATION COMMITTEE REPORT

In 1987 the Recreation Committee sponsored a wide variety of leisure time opportunities for members of the Newington community.

The youth in town were offered sports participation in conjunction with nearby towns which included baseball, basketball and soccer. The installation of soccer goals on our own field increased interest and field use. Swim lessons, after school specials, Christmas Crafts for Kids, ice skating parties, ski trips, After School Crafts and Games and a winter hayride were a few of the activities enjoyed during the year. The annual Halloween Party was a chance for the whole family to get together for a night of fun with magician B. J. Hickman providing entertainment. The summer recreation program showed an increase in participation especially by preschool and junior high school ages which suggests expansion to better accommodate these needs.

Adults in Newington had many opportunities for programs and special events such as crafts at the Stone School, the Helga Pictures in Boston, the Nutcracker and other theater trips, the New Year's Day Party, the Circus and Ice Capades. Often serving as an outreach agency, Recreation provides transportation for seniors and trips to local senior centers for holiday parties and dinners.

With growth comes change, and the Recreation Committee has actively dedicated itself to doing a conscientious job in determining and satisfying the leisure needs of Newington residents. As an aid in accomplishing this goal, a survey has been prepared and will be distributed to townspeople. As always, your suggestions and participation are needed and welcome.

Annie Gasowski
Recreation Director
1987 Recreation Committee

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

The Directors of the Lamprey Regional Solid Waste Cooperative are pleased to continue to report that the incinerator/energy recovery plant located on the campus of the University of New Hampshire is operating on a continuous twenty-four-hour, seven-day-a-week schedule.

The day-to-day operation is carried out under the supervision of the Cooperatives Administrator, under the general supervisory control of the three-member Operations Committee from the Joint Board of Directors. The plant personnel, in addition to the Administrator, includes two mechanics, a truck driver, two daily shifts of 12 hours each involving 8 persons plus daily clean-up crew, and the secretary. This organization operates the incinerator system, maintains records, and coordinates with the University's heating plant staff to monitor the boiler and steam production elements of the plant. The Cooperatives organization also handles the collection of refuse from the transfer stations of four communities, and handles the ash removal and its transfer to landfill sites.

The most pressing problem that faced the Cooperative this year was selecting and permitting an ash landfill for the residue from our incineration process. After looking at sites in all of the Cooperatives' member communities a site in Somersworth was selected with the approval of the Somersworth City Council with a few stipulations, the largest of which was that we conduct a test program to forecast the results of mixing the ash with Somersworth's sludge from its Waste Water Treatment plant.

The Cooperative entered into an agreement with the Environmental Research Group, which is affiliated with the University of New Hampshire, to perform such tests. The results have been excellent and could be considered a minor breakthrough in environmental engineering. Mixing the sewer sludge with the ash from the incinerator makes a much more environmentally sound product than either of the two elements by themselves. The final report should be finished by the middle of January 1988 and a copy of the final report will be sent to each town in the Cooperative.

While the testing with the Environmental Research Group has been ongoing the Cooperative has been proceeding with the permit process with the State of New Hampshire. To date some fifteen test borings have been made on the site, ninety-five percent of the hydrological work has been completed and one hundred percent of the design of the landfill for submittal to the state with the application has been completed. Hopefully by the time you read this the state of New Hampshire will have issued the permit to construct the facility.

The tipping fee this year will remain the same as last. One thing should be noted, last year (1986), the Cooperative processed 37,863 tons of rubbish from member communities and this year (1987) processed 39,883 tons for a 5.33% increase. The member communities are asked to examine methods of reducing their waste stream. As a side note, each person on the average generates about 3.0 lbs. of rubbish per day which equates to about eleven hundred pounds per year, so therefore, if 100 people move into your community in one year the community's rubbish bill is going to be \$2,225.00 higher based on this year's tipping fee of \$41.00 per ton.

Joint Board of Directors
Lamprey Regional Solid Waste Cooperative

CONSERVATION COMMISSION REPORT

The two remaining plaques were finished and put in place. John Rowe's original sketch of the Old Piscataqua Bridge was photographed and transferred to anodized aluminum with the history of the bridge printed underneath. It is on display in the Town Office. The other plaque is Rowe's rendition of the Town Seal, photographed and with its interpretation printed underneath. It hangs in the Town Hall lobby below the painted seal.

The Commission has reviewed the State Wetlands Board permit applications and agreed with their findings. Also noted was the passage of Senate Bill #1 by the Legislature making matching funds available to towns for acquisition of land. Although there are many new subdivisions it is felt that the 104 acres at Fox Point offer unspoiled areas for the benefit of town residents.

Six sugar maples provided by the State have been planted between the cemetery wall and Little Bay Road by Bob Olson and Dick Rines. Six paper birch trees will be set out on town land in the Spring. It is noted that the pine trees in the "Flynn Pit" are growing well and will need to be trimmed. Some of the white pine trees set out in 1986 are also growing, especially where they have been mowed around. Plans are underway to get, from the State, other shrubs for wildlife habitat and to combat soil erosion.

HISTORIC DISTRICT COMMISSION

On October 22, 1987 the N.H. Division of Historical Resources approved the application of the Newington Center Historic District for nomination to the National Register of Historic Places.

This action represented 1½ years of research by the members of the Newington Historic District Commission, aided by a Certified Local Government grant and a historical consultant, Lisa Mausolf.

The nomination, if approved by the National Park Service, will place 14 buildings, 6 objects and 3 sites on the National Register of Historic Places. In part, the description from the Nomination is:

The Newington Center Historic District consists of an impressive grouping of public buildings and private dwellings ranging from the early 18th to early 20th century, inseparably linked to a virtually unspoiled landscape which combines an old cemetery, parade ground, the Town Forest, and open fields indicative of the town's agricultural heritage.

As the historic civic center of Newington, the nominated district contains a concentration of public buildings and sites including the church, the old town hall, library, school, cemetery, forest and two parsonages. At the northern end of the district are two private residences. The town was historically a farming community, and the structures and landscape of these residential properties surrounding the civic core reflect an agricultural heritage. Each retains its barn, related outbuildings and open fields.

The National Register is an official listing of significant heritage resources worthy of preservation, but it does not impose any restrictions or limitations on the use of private or non-Federal property unless Federal funds or programs are involved. Registered resources are eligible for Federal funding for rehabilitation when funds are available. In addition, certain Federal tax provisions may apply. This also can protect the resource from eminent domain acquisition. None of the Federal provisions pre-empt local historic district ordinances, which may be more stringent within the district.

The wealth of information offered by everyone was overwhelming and a very satisfying town experience. In fact, it made the Committee realize there is much more to be done to support the local preservation of history in these days of rapid change.

At this time Newington has been awarded another CLG Grant to continue to include private residences on the National Register, to catalogue and protect old town papers, to locate old historical sites such as brickyards and Indian sites, and to assist to archive old private records and pictures

This Historic District Commission looks forward to the notice when we can begin the next phase. We hope the generous contribution of the families of Newington will continue to document the life of the town. The real strength of this community is the wonderful people who live here and work very hard together to do important work.

Barbara Hill
Historic District Commission

BOARD OF ADJUSTMENT 1987

The Board of Adjustment took the following action in 1987:

- May — Denied a request from David and William Bischoff to create a lot fronting on Newington Road leaving the rear of the property without the required 200' road frontage.
- May — Granted variance to Rockingham Electrical Supply to allow expansion of the former tennis barn
- August — Granted a variance from the sideline requirements to allow construction of a building at 115 River Road as requested by owners Donald Hayes and Robert Ricci.
- September — Granted William Donovan, Jr., a Special Exception from the Wetlands Ordinance to allow construction of a road across poorly drained soils.
- September — Granted a variance to Phyllis P. Pickering to allow creation of a lot 64,000 square feet where 80,000 square feet are required.
- October — Denied a request for a variance to allow expansion of the Exxon Service Station at the corner of Gosling Road and Woodbury Avenue.

Phillip E. Toomire
Chairman

SCHOOL BOARD REPORT

This year found us dealing with the hazard of uplifting tiles in the hallways, two classrooms, nurse's office and the supply room. Initially, the job appeared well done, however, only a short test of time proved otherwise. Defective tile and poor floor preparation in certain areas required us to confront the company. Following the close of this school year, they will come back and make good their commitment to us.

With the statewide move to raise teacher salary schedules, we were involved in negotiations which left both parties at impasse. We then went to mediation, hoping to come to an agreement, with little success. At that time we were forced to seek a fact finder, who, with all the facts, would render a decision. In light of the information presented, the fact finder found predominantly in favor of the School Board. Hopefully, this year will bring a settlement lasting more than one year.

School began in the fall with the teachers enlightening the Board as they made presentations on their teaching styles and curriculums. This came out of a concern of the Board's to know more of what was going on in the classrooms. Increasing our awareness of activities and curriculums helps us to better understand and appreciate the needs of the school. The Board is appreciative of the extra effort by the teachers in this attempt to better serve all.

The impending threat of oil fuel shortages, increasing fuel costs, and environmental regulations regarding oil tank removal and testing, the Board went in search of other heating alternatives. It was agreed upon to install gas heat for several reasons: a. Gas burns cleaner, reducing boiler malfunctions and increasing boiler efficiency. b. The rates are more stable as they are posted twice a year, making budget predictions more accurate. c. We will never have to bear the costly expenses of testing and tank removal.

The co-op study was brought full circle with a vote taken in October. Despite the fact that it was vetoed, better communication developed between our SAU and the Portsmouth School District. Doors were opened to allow the sending towns more of a voice on their board as well as on several committees.

This year the Board again has strived to keep the children's needs foremost in our decisions. Education alone is not our sole responsibility. We must also work to preserve our commitment to the community by making decisions concerning building maintenance and improvements that are cost-effective.

Wendy Sweeney, Chairperson
Newington School Board

REPORT OF THE SUPERINTENDENT OF SCHOOLS — 1987-88

DANIEL C. DURGIN

I am pleased to submit my ninth annual report to the citizens of Greenland, New Castle, Newington and Rye.

Following up on a matter reported on last year, I take pleasure in reporting that our Health Curriculum Committee, after eighteen month of study, selected a health program developed in Oregon, and tried and tested in a number of school systems across the country. The curriculum, appropriately named the Oregon Program, consists of eighty-three units of instruction spread over grades Kindergarten through eight. The program efficiently covers the ten major health content areas which are Health Services and Consumer Health, Fitness, Dental Health, Environmental Health, Disease Prevention, Growth and Development, Nutrition, Substance Use and Abuse, Safety and First Aid, as well as Mental Health, Family Life, and Human Sexuality.

SAU #50 is diligently moving ahead on an AIDS education unit, which will be implemented by the spring of 1988. Recognizing the serious nature of the disease, it is the feeling of the staff and school boards that something must be in place as soon as possible to bring accurate information to our young people about this usually fatal disease. It is our strong desire to work closely with parents in bringing this information to our children. Plans call for the entire health program to be in place and introduced in September of 1988.

On a health-related matter, the Foundation for Seacoast Health assisted SAU #50 financially last summer in sending a five-member team to a wellness conference in Waterville Valley. The week-long program focused on good health habits, particularly in the area of physical exercise and nutrition. Those attending were teachers, Judith Norton, Katherine Hennessy, Regina Taylor; School Nurse Barbara Wilson; and Newington citizen Margaret Lamson. The group returned from the conference unanimously enthused about what they had learned and experienced, and immediately wanted to share their experiences and new knowledge with their colleagues. Some of this was accomplished simply through conversation with staff members. In addition, these five people requested and received permission to use the October in-service half day to bring this information, formally, to the staff. On the afternoon of October 8, 1987, staff members from SAU #50 heard speakers on nutrition, stress management, walking and exercise, and other health related topics. The afternoon's activities were well received by the staff, and most left committed to applying some of their new knowledge to their day-to-day lives. The long term goal is for staff to develop better

health habits, in turn modeling this behavior for students who it will see the importance of such behavior.

In September of 1987 an eighteen-month study of the feasibility of forming a Cooperative School District with the towns of Greenland, New Castle, Newington, Rye and Stratham was brought to a conclusion by a vote of each town. In order for the plan to succeed, each town would have had to vote favorably on it. Two towns voted to approve the cooperative formation while three voted against it. This effectively killed the plan for at least the near future. I would be remiss if I did not take this opportunity to acknowledge the work of the committee in studying this most complex issue over that year and a half period. The effort required many meetings consuming a great number of hours. The committee members are to be commended for their unselfish commitment to what was a most difficult, yet important task. A complete and final report from the Cooperative Study Committee is contained elsewhere in this book.

One of our goals in SAU #50 continues to be enhancing students' abilities in the area of thinking and problem solving. Staff members have been encouraged to attend in-service activities available to them and the SAU #50 Staff Development Committee is planning another workshop program on this topic. We are most fortunate also in that the National Association for Supervision and Curriculum Development (NASCD) has targeted critical thinking as one of their themes for this year and next, and is in the process of offering several workshops in New Hampshire on the topic. Well-known national authorities are being brought to New Hampshire to provide this valuable instruction for staff and every effort is being made to take advantage of this unique opportunity.

Presently three of our schools are committing much time and energy to a process that can only have a positive impact on their quality. The Greenland Central School, plus the Rye Elementary School and Rye Junior High School, are involved in an accreditation process conducted by the New England Association of Schools and Colleges (NEASC). The process is a time-consuming and involved one which requires schools to prepare for an on-site visitation by a team of educators. Every aspect of the school from community interaction to curriculum are studied in depth by the staff. It is felt that this self-evaluation is the most important part of the entire process allowing a school to look at itself carefully and prepare for an outside group to do likewise. The entire process will conclude with the team visitations which are scheduled for November of 1988.

During the summer of 1987 a new computer system was installed in the SAU #50 office. Staff members responsible for financial management spent many hours during the fall and winter months bringing on the payroll system and a new budgeting/accounting package. This new system will allow much more flexibility within

the payroll process. Also, through the budgeting package, a more detailed description of our expenditure plan will be permitted thus giving school board members, budget committee members, and the general public a clearer view of where tax dollars are spent. Much credit goes to Business Administrator James Katkin, assisted by staff member Regina Burgoyne, in bringing this system on line.

While speaking of the SAU #50 office, I would also acknowledge the work of two other people who perform extremely important tasks for the towns which the SAU serves.

Special Education Coordinator Francine Fullam has SAU-wide responsibility for all special education functions. This involves, among other things, assuring that SAU #50 towns are in total compliance with state and federal laws governing the programming for all students receiving special education services, plus overseeing the actual instruction in SAU #50, at Portsmouth High School and Portsmouth Junior High School for those students from the SAU #50 towns. The work involves much parental and student contact and is handled by Miss Fullam with a very professional yet caring attitude.

In addition to her special education duties, Miss Fullam has also taken on the responsibilities of the Directorship of the Chapter I Program, a program that serves the educationally disadvantaged in areas of language arts and mathematics.

Mary Lou Clinton-Stevens is secretary to the Superintendent. Her duties are many and varied due to the nature of our responsibilities and the size of our staff. I am most grateful to these people for their tireless and dedicated efforts on behalf of the four districts which we serve.

In closing, let me remind you as I do each year, to maintain an interest in the activities of your community and your schools, and to visit your schools and become involved whenever and wherever possible.

PRINCIPAL'S REPORT

Dear Friends:

Your school community remained a place where children could test their curiosities and inquire into their numerous concerns while growing in wisdom through the acquisition of knowledge and skills. Facilitating this development was an environment rich in support and collaboration based upon the staff's experience and understanding of the needs of the whole child.

Active learning was the norm throughout the building. Children could be seen busily interacting with all kinds of learning materials carefully set out to achieve desired outcomes. Cooperative learning with students teamed in multi-configurations was also employed. More emphasis was placed upon bridging the gap between the concrete and the abstract through an extensive use of manipulatives. Calculators and computers were two such examples.

Computer learning has moved from literacy in the primary grades to graphics and design in the intermediate levels. Computer assisted instruction for Language Arts and Mathematics as well as software packages for cognitive skills were integrated into the daily routines of the children. Creating those old forms of written expression became more of a challenge for many pupils as they drafted and edited compositions on the word processor. The technology also proved to be quite a stimulator for student interaction as operations and programs were constructed. Older students acting as tutors shared their expertise with their younger counterparts thus enhancing their own comprehension while reinforcing personal communication attributes.

Plainly, the computer has made an impact, but printed and nonprinted materials remained the primary resources in the teachers' arsenal. Whether one used a textbook, workbook, worksheet, film, tape, VCR cassette, transparency, or game to note a few, the crucial element in the process was the proactive decision of the teacher.

This truism was again brought to bear in a series of curriculum sessions with the School Board. During these informational presentations, the rooms were visited to observe how the teacher matched and accomplished the learning objectives of the Board, teacher and student.

At the SAU level, curriculum committees reviewed and revamped instructional guides wherever prudent. A Unified Arts committee was formed to add coherence and integration within the fields of art, music and physical education. Soon to be adopted is the work of a centralized health group which recommended that all Unit 50 schools place into its instructional cycle a uniform health continuum.

Accompanying the program will be teaching guidelines for AIDS instruction.

Your school community received favorable grades for its performance on a questionnaire distributed throughout the town. Respondents were impressed with the personal learning environment and the caring attitude of the faculty. People also indicated a strong bond to the school and perceived their input to be solicited in educational planning. Direct contact along with pupil expression remained the most effective means for acquiring information about the school. Stemming from the poll was the creation of a citizens' support group.

In last year's report, we urged citizens to become actively involved in their school. Many answered the call and assisted in numerous capacities. Some worked directly with the students in reading groups and in occupation sharing while others performed clerical functions for the staff. Unable to give service during the school day, a parent provided help at home. Probably the single most volunteer effort came with Ms. Oroski's Ecology weekend last spring where parents cooked, shopped, chauffeured, and chaperoned.

On the surface, the school's population grew slightly. However, the count reflected a rise despite a number of transfers and also substantiated the accuracy of the projections as to a continued growth cycle. As an educator this pattern bodes well for the community. But it also means diminished space and program change. To meet the challenge compensatory programs such as Special Education, Chapter I, Speech and Occupational Therapy shared and alterhated instructional space. At times, these special services were conducted in the classroom and expanded their specialization to include a greater student base. Each of these programs extended its time commitment to children due not only to the student addition but also to the staff's desire to engage each child in the most appropriate education possible. Recruiting for personnel to fill the voids created through transfers presented us with the reality that there is a teacher crisis in Special Education.

As the result of increased participation, the food service department converted to disposables and instituted a student helper program. A plan to replace the current table and chairs with rollaway bench-style tables was inaugurated. The meals selection scheme did much to encourage greater student involvement.

Continued proliferation and building use necessitated a reassessment of the maintenance schedule. It was determined that the present number of daily hours was in keeping with the workload, but that the number of work days should be adjusted to provide adequate time for thorough maintenance during vacations.

My purpose in raising the growth factor in this report was not to cause alarm, but rather to inform you of upcoming concerns.

Please note that these considerations were part of the existing program when the enrollment was above sixty. And as we went through the era of declining student population planned adaptations ensued in the downward direction.

Before concluding this letter to you, I would like to publicly thank Mrs. Marjorie Pickering for her more than twenty years of service to the school community. In those years, she helped broaden the horizons of many young people through the wonderful world of books and was an ardent supporter of quality education for the future citizens of Newington.

To Marge and to you may we repeat the popular saying, "And we thank you for your support."

REPORT OF COOPERATIVE SCHOOL STUDY COMMITTEE

According to a vote taken at district meetings in the towns of Greenland, New Castle, Newington, Rye, and Stratham, a Cooperative School District Study Committee was formed in the spring of 1986. The committee was charged with studying the various issues surrounding the feasibility of establishing a cooperative school district and with filing a written report at the March, 1987, school district meetings. The main responsibility of the committee, if a cooperative school was found to be feasible, was to draft and bring to the voters, articles of agreement as prescribed by state law. These articles would cover every aspect of the cooperative district from the name of the new school and how costs would be allocated, to the representation on the school board. Three members from each town, one of whom was a school board member from that town, were appointed by the district's moderator. Some towns chose to appoint alternates as well.

The committee held its organizational meeting in April, 1986. Subcommittees were formed and members began to investigate the many aspects of a cooperative school district. This is a final report of the process used, the actions taken, and the results achieved.

The committee spent considerable time discussing and exploring community needs, not just present needs, but future considerations. Subcommittees carefully projected enrollments and tuition costs, not just for the five towns but for the districts to which they presently tuition students -- Portsmouth and Exeter. With the superb assistance of the superintendent's office, these projections were done in a variety of commonly used methods and compared and analyzed. The results were very interesting. While some towns saw tremendous growth as their primary reason for joining the study group, others found declining enrollment and the high per pupil cost to be their motivator. Still, others felt that unity and continuity of program were primary advantages. Members began to appreciate the possibilities in curriculum, program continuity, personal recognition of students, and cost effectiveness that operation and ownership of their own school could bring. From these discussions a common ground was realized. Members felt very comfortable with the primary educational process within the towns. They agreed that they would pursue as a committee the feasibility of the formation of a cooperative school district encompassing grades 7 - 12 with a combined enrollment of 1,125 students.

Having made this decision several things needed to be done. First the committee needed to identify curriculum priorities; second, to estimate the cost of such a school system; and third, to formulate an equitable method of apportioning the cost to each town.

Early on the conclusion was reached that no town currently held any buildings that could be of use to the Coop project, not to mention a general unwillingness to sell town-owned buildings to a Coop district. Therefore, new construction was projected.

Staffing and curriculum subcommittees worked long and hard comparing programs at Portsmouth High School and Exeter AREA High School and formulating an "ideal" school curriculum with built-in class size requirements and space requirements. The same was done for the seventh and eighth grade programs of all five towns. The outcome was a recommendation for two separate schools on the same site connected by a core unit housing certain shared facilities such as office area, guidance, nurse, auditorium, kitchen facility and library. The proposed system provided all of the programs presently available to students.

This information generated the operational and building costs using a computer program provided by the New Hampshire Department of Education.

Visitations to other schools and communication with other cooperatives of the size similar to the one being proposed were helpful in determining what was working for them, and what was not, and why. Information on issues such as the middle school concept, and sharing of services, personnel needs, and the creativity of programming found in smaller schools was most helpful. The members felt strongly that seventh and eighth grade students should not have interaction with students in grades nine through twelve. They also rejected the idea of a grade seven through nine concept and proceeded to plan for two separate wings. It was also felt with good planning the seventh and eighth graders could successfully share many aspects of the site, without regular interaction with students in grades nine through twelve. These requirements were built into the program.

By taking the projected enrollment of 1,125 students for 1989 (the projected date of opening) and the projected operating and capital costs for that same year, the committee felt it had workable figures to complete the final recommendation. The finance subcommittee worked diligently on every aspect of cost, meeting weekly for an extended period to discuss and examine the repercussions of apportionment of cost throughout the five towns. Where dissimilarities in need drew towns together in the concept of the cooperative, differences in student population, town valuation, and growth potential made the apportionment of cost the most difficult aspect of the study. Everyone was seeking an equitable answer. Literally dozens of different combinations were investigated. The first conclusion reached was that operational costs must be distributed on a per student basis. In other words, operational costs for any given year were to be divided by the number of students in the system and multiplied by the number of students for each town to achieve that town's share for the year.

The capital or building costs were another matter and many meetings were held just on that issue. The committee was unable to come to complete agreement. However, for the purpose of moving forward tentative agreement on a compromise of 80% student enrollment and 20% equalized valuation was reached. In other words, 80% of the capital costs for any given year would be billed in the same method as the operational costs, by number of students enrolled by town. Twenty percent would be apportioned based on a formula from the state on equalized valuation of the towns. In reaching this position the following was considered: (a) representation on the proposed school board; (b) the tax increase for each town that would result; (c) the projected per pupil cost per town. The committee felt that for the five towns such issues as direct control over finances and curriculum, continuity of educational program, and ownership of a state-of-the-art facility, made the project a viable alternative worthy of consideration. The consensus on the apportionment of capital (building) costs was ultimately 85% enrollment, 15% equalized value formula.

At this point, a report was made to the five towns at their respective annual district meetings noting progress thus far.

The depth of the study made it necessary to continue working. The committee set about to finalize the articles of agreement, and continued discussions of cost apportionment. A public hearing was held at the Rye Junior High School on June 2, 1987, for the five towns. Also, informational sessions were held in each of the five towns. Input from the public hearings caused reconsideration of the articles of agreement and many people requested the voting be postponed until September. A second public hearing was held on June 24 to review changes in wording. The articles of agreement were submitted to the New Hampshire Board of Education and were approved on July 15. A date for the final vote was set for September 22, 1987. Information to voters was mailed prior to the meeting.

Because the vote had been postponed until September, the projected date of opening was pushed back one year to 1990. This in turn changed the projected figures, and caused concern with our receiving districts - Portsmouth and Exeter, who were trying to plan for their own needs. Along with a vote to form the Coop in September, a favorable vote by 2/3 majority to withdraw from our AREA agreements was also necessary. This vote could only take place at a regular annual school district meeting, the next one being in March of 1988.

The question put before the voters on September 22nd was whether or not they would vote to form a cooperative school district with Rye, Newington, New Castle, Greenland and Stratham. The vote by ballot was:

	YES	NO
Greenland	112	102
New Castle	34	77
Newington	42	73
Rye	160	112
Stratham	78	146

For a Cooperative School District to have been formed it was necessary for the five towns to pass the article by a simple majority vote. Three towns did not pass it, therefore the Coop was not formed.

The committee feels confident that their recommendation was sound. Investigation into the future of education in this area clearly indicates that growth and change are part of our future and we need to prepare for them by carefully planning, and not by waiting for a crisis and reacting to it. People who voted against the Coop did so for many reasons. Some were financial, some educational, and some personal. Although this particular cooperative concept did not please the majority of the people, please remain open-minded to other options as the opportunities arise. By our not preparing today for tomorrow, we will drastically limit our options when the problems become more evident.

AUDITOR'S REPORT

Newington School Board
Newington School District
Newington, NH 03801

We have examined the combined financial statements of the Newington, New Hampshire School District for the year ended June 30, 1987, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and the additional standards and requirements for financial and compliance audits as set forth in "Standards for Audit of Governmental Organizations, Programs, Activities and Functions", and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances, except as noted in the following paragraph.

In accordance with the practices followed by other municipal entities in the State (Note I--Accounting Policies), the combined financial statements referred to above do not include financial statements of the General Fixed Asset Account Group, which should be included to conform with generally accepted accounting principles.

In our opinion, except for the omission of the financial statements described above results in an incomplete presentation, the combined financial statements referred to above present fairly the financial position of the Newington, New Hampshire School District at June 30, 1987, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles, applied on a basis consistent with the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The accompanying supplemental combining financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the combined financial statements of the Newington, New Hampshire School District. The information has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

Signed,

CROWLEY & CROWLEY

Regulations Governing the Use of Town Facilities:

1. Any resident with permission of the Board of Selectmen may use the Town Facilities for a family affair such as a wedding or birthday with the guest(s) of honor a Newington Resident.
2. Business or Industries which pay property taxes to the Town may be granted the use for a management sponsored activity such as Christmas Party or Awards Banquet.
3. The number of persons attending a function in the Town Hall is limited to two hundred (200).
4. The foyer of the Town Hall is not included in the use permitted.
 - The responsible party shall advise guests to confine their activities to the Main Hall. It must be understood that any loss or damages will be paid for by the person given the permit to use the facility.
5. Applications for use of the facility shall be presented on the form provided and use will be granted on a first-come, first-serve basis.
6. A Police Officer may be required at the user's expense – this will be determined by the Police Chief.
7. Arrangements for cleanup may be made with the Town Custodian at his rate.
